

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF NEW YORK

---

UNITED STATES OF AMERICA

v.

MARY ANN GAEDS,

Defendant.

3:08-CR-485  
(TJM/GJD)

---

MIROSLAV LOVRIC, Assistant United States Attorney  
LISA A. PEEBLES, Assistant Federal Public Defender

**ORDER**

Presently before the court is a request to post property to satisfy this court's oral order requiring \$50,000 cash bail as security for defendant's release.

The papers received by the clerk seem to indicate that there was \$50,000 in equity in property offered by the surety. However, public records from the Taxing Authorities show that the property is assessed at a much lower value than the value given by the surety. The Federal Public Defender has stated in a letter dated August 25, 2008 that a professional appraisal has been done which gave a higher appraisal value. This appraisal was done approximately five years ago. The court will consider allowing the property to be posted as security, however, any appraisal must be **current**, and the appraisal must show a fair market value at least \$50,000 more than the outstanding debt.

Defendant's application through a surety to utilize the surety's property for security is hereby **DENIED** without prejudice to a renewal on further, more current information.

Date: August 25, 2008

  
Hon. Gustave J. DiBianco  
U.S. Magistrate Judge
